[kaf@mdacorporation.com](mailto:kaf@mdacorporation.com)

- Available within days of contracting
- No long-term commitment required
- Pay only for hours delivered
- Minimal customer staff and no infrastructure required

### Persist-INT™ Products

Persist-INT™ leverages MDA's current KAF-based operations to provide immediate access to Intelligence, Surveillance, and Reconnaissance (ISR) feeds by-the-hour including real-time EO/IR (day/night) video and COMINT.

Electro-Optical (Day)

Infrared (Night)

Real-time COMINT feeds

Real-time Full Motion Video (FMV) feeds

### ISR - When and Where Needed

MDA Persist-INT™ ISR feeds are delivered to ISAF forces to both frontline troops and operation command centers.

Frontline troops receive real-time EO/IR video for both day and night operations.

Operation command centers receive real-time EO/IR video and COMINT feeds. Video feeds are fully-compliant with NATO's Afghan Mission Network.

### MDA Persist-INT™ Operations at Kandahar Airfield

MDA offers the only commercially-operated complete ISR service at KAF today.

Embedded MDA Persist-INT™ operations at KAF

MDA Persist-INT™ hangar at KAF

MDA KAF-based maintenance services

MDA's KAF-based operations have delivered over 18,000 hours of ISR services to ISAF forces since 2008, with a proven availability and reliability record of over 90%. Persist-INT™ is a full-turnkey service including flight permits, insurance, aircraft, payloads, fuel, maintenance, operators, ground equipment and infrastructure.
